Key Facts

Software & Services

Conning provides a full range of risk management software, which is cloud-capable and deployable either in-house or as software-as-a-service. We leverage our award-winning software—the same software we use to manage client portfolios—and our experienced risk management team to support:

- Strategic Asset Allocation
- Economic Capital Modeling
- Asset-Liability Modeling
- Custom Calibration.

In 2020 Conning introduced its Climate Risk Reporting and Scenario service, equipping insurance and pension risk professionals with the tools and analytics needed to assess investment risk under a range of climate change stresses.

Insurance Research & Consulting

Our insurance industry team is experienced in all market segments and provides an array of research and consulting services. Conning clients have full access to our online portal with the latest research and a 30-year archive of material, including research publications, webinars, surveys, data, and forecasts.

Conning also assists clients with bespoke research and consulting projects involving strategy and business development, transaction support, peer analysis, rating-agency support, and state and line of business forecasting.
